

February 8, 1994

NOTE TO: Susan Fridley
Document Control Desk

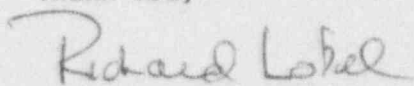

FROM: Richard Lobel, Acting Chief
Containment Systems and Severe Accident Branch
NRR

SUBJECT: Transmittal of Contractor Report for Placement in Central Files and
the Public Document Room

The attached report "Parametric Study of the Potential for BWR ECCS Strainer Blockage Due to LOCA Generated Debris" dated January 20, 1994, was prepared for the NRC by Science and Engineering Associates, Inc. I anticipate that it will be referenced in future licensing work and therefore should be placed in Central Files and the Public Document Room.

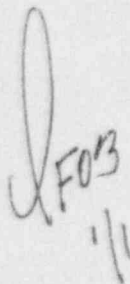

A copy of this report will be delivered to the Public Document Room to be available to the public until the report arrives at the Public document Room through the normal process.

Thank You,

Richard Lobel, Acting Chief,
Containment Systems and Severe Accident Branch
