XSNM 01951
Japan

Dear Mr. Griffin:

Concerning import of the special nuclear material for the facility noted below, this will confirm that the Government of Japan appointed Mitsubishi Nuclear Fuel Co., Ltd. as an authorized person under the terms and conditions pursuant to Article VI of the Agreement for Cooperation between the Government of the United States of America and Government of Japan concerning Civil Uses of Atomic Energy which entered into force on July 10, 1968, amended by the Protocol on December 21, 1973.

Material for Laboratory Correlation Program of Mitsubishi Nuclear Fuel Co., Ltd.: 2.8 gs of U-235 (3.15 % maximum enrichment) contained in 90.1 gs of uranium

Further, it is confirmed that the transfer of the special nuclear material identified above will take place under all the terms and conditions of the Agreement for Cooperation between our Governments, and that the appointee(s) named above have been authorized to receive and possess the material by both Governments.

Also, the Government of Japan confirms that the safeguards and guarantees of the Agreement for Cooperation will always apply to this special nuclear material, except for that material subsequently retransferred with the written approval of the United States.

Sincerely yours,

Tetsuhisa Shirakawa
First Secretary (Scientific)

Ref: This is in reference to the case number of XSNM-1951 stated in your letter dated April 28, 1982.
