SUBJECT: RESPONSE TO NRC INSPECTION REPORT 030-10748-01

Thank you for your letter of January 25, 1994, in response to our letter and Notice of Violation dated December 29, 1993. We have reviewed your reply and find it responsive to the concerns raised in our Notice of Violation. We will review the implementation of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained.

Sincerely,

Charles L. Cain

RE: Inspection of License Number 26-16293-01

Gentlemen:

This letter is in response to a recent Notice of Violation received by our facility on January 4, 1994. The letter from the Nuclear Regulatory Commission outlined one item of non-compliance which we have corrected.

The item of non-compliance related to the time of day the radiation surveys were being performed. We have modified our procedure to indicate that the daily radiation surveys would be performed at the end of the day. All individuals performing this survey have been instructed as to the new procedure. Full compliance with this item was achieved on January 5, 1994.

If you have any questions concerning our response to the above item of non-compliance, please do not hesitate to call.

Sincerely,

Max L. Lybarger
Medical Center Director
