Dear Mr. Edwards:

SUBJECT: CONFIRMATION OF MANAGEMENT MEETING

This confirms the arrangements made between Dr. Keith Asmussen of your staff and Mr. Jerome Roth of this office regarding a management meeting to be conducted at the Nuclear Regulatory Commission Headquarters at 9:00 a.m. on February 9, 1994.

Information concerning this meeting was originally conveyed to you in the cover letter of Inspection Report No. 93-201, dated January 4, 1994. In that letter, the NRC expressed its concern over the number of violations and other program weaknesses identified during the material control and accounting (MC&A) inspection conducted during the week of November 29 - December 2, 1993. The violations and program weaknesses appear to indicate a lack of management control and oversight of your MC&A program.

Please be prepared to discuss the results of the last MC&A inspection, your plans for corrective actions regarding the identified issues and your overall plans for improving your licensed program.

Should you have any questions concerning this meeting, please contact us.

Sincerely,

Robert F. Burnett, Director
Division of Fuel Cycle Safety
and Safeguards, NMSS
