President  
P. O. Box 284

Dear Mr. Ballard:

This refers to your letter dated May 17, 1982, regarding the assessment of a fee for the inspection of License No. 29-10532-02 conducted on December 15, 1981.

The above NRC license gives you the authority to receive, own, possess, transfer and use byproduct material. If you do not use byproduct material under this license, you might consider canceling your license. However, as long as you hold a valid license, inspections must be conducted to verify you are discharging your responsibilities under that license and the 10 CFR 170 specified inspection fee will be charged for such inspections.

If you have any further questions regarding this matter, please do not hesitate to contact me.

Sincerely,

Original Signed By: *T. T. Martin*
