Attention: Thomas T. Martin, Director  
Division of Eng. & Technical Insp.

Dear Mr. Martin:

The information regarding License #29-10532-02 covered in your letter dated 12 January 1982 regarding Radiography Inspection Inc.'s possession of radioactive material is correct, however, I do have a question regarding the inspection conducted by Miss J. McGinness and the resulting invoice #0658P.

1. Miss McGinness was conducting an inspection of Consolidated X-Ray Service Corporation License #4208456-02 for which a \$980.00 charge was made.
2. During the above inspection she inquired the status of Radiography Inspection, Inc. (docket #30-11488) for which a \$980.00 charge was made.
3. Why is the charge to Radiography Inspection Inc. the same as Consolidated X-Ray Service Corp.? One is minimal paper work, the other average paper work. One required a trip, the other required no trip.

Sincerely,  
RADIOGRAPHY INSPECTION INC.
