Gentlemen:

This refers to the routine safety inspection conducted by Mr. J. L. Lynch of this office on August 11, 1982, of activities authorized by NRC Byproduct Material License No. 22-20257-01 and to the discussion of our findings with Messrs. G. Burandt and D. Crabtree at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.
