Re: 40-943
 LRL:ND
 Source Material License No. C-3966

Dear Mr. Delaney:

In regard to purchases and inventory of thorium oxide covered by the above license, please advise if regular reports should be made to your office.

A considerable portion of the present inventory of thorium oxide in Albany, Oregon, was purchased under Permit No. D-607 which covered both Glen Cove, New York and Albany, Oregon. If this inventory is transferred from Permit No. D-607 to Permit No. C-3966, can Glen Cove purchase additional material on Permit No. D-607 to cover the inventory transferred?

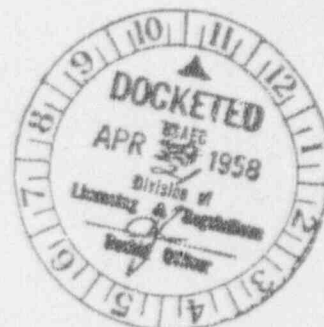

Yours very truly, +
