P.O. Box 2230
Idaho Falls, Idaho 83403-2230

SUBJECT: NRC INSPECTION REPORT 030-17556/94-01

This refers to the routine, unannounced inspection conducted by Mr. Robert A. Brown of this office on January 21, 1994. The inspection included a review of activities authorized by Byproduct Materials License 11-19403-01. At the conclusion of the inspection, the findings were discussed with members of your staff.

The inspection was an examination of activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, and observation of activities in progress.

No violations or deviations were identified; therefore, no response to this letter is required.

The inspector reviewed records of training conducted on personnel recently assigned as logging supervisors. All training requirements contained in your license application were met. In addition, it was noted that your use of licensed material for down-hole logging under NRC jurisdiction was limited to three jobs in the past 2 years.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact the inspector identified above at (817) 860-8100.

Sincerely,

Charles L. Cain
