DOCKETING & SERVICE  
BRANCH

August 23, 1982

Secretary of the Commission  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

DOCKET NUMBER  
PROPOSED RULE

PR - Misc. Notice  
(Reg Guide)

Attention: Docketing and Service Branch

Dear Sir:

We have reviewed the Draft Regulatory Guide TM 608-4 you sent us on July 7, 1982. We find that we can accept as written all regulations with the exception of Item 13 C.

Item 13 C specifies that dosimetry systems be calibrated every two years. We suggest that this requirement be relaxed to accommodate the long time required to get instruments calibrated by the rather few accredited calibration laboratories. Since it takes a year or more to obtain calibration service, the two year requirement seems to be impractical.

Sincerely yours,

Patrick E. Wienn  
Executive Vice President
