Gentlemen:

SUBJECT: REVISION 93-2 TO EMERGENCY PLAN FOR MCGUIRE NUCLEAR SITE,
DOCKET NOS. 50-369 AND 50-370

Based on our review of the subject submittal, we have concluded that the changes therein meet the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR Part 50.

We have also received your submittals of Revisions 93-3 and 94-1 to your Emergency Plan, and will be reviewing those in the near future. The results of those evaluations will be communicated to you by separate correspondence.

This letter will additionally serve to acknowledge that the subject revision satisfactorily resolved the ten Emergency Plan inconsistencies delineated in our April 23, 1993 letter to you regarding our review of Revision 92-1. We appreciate your prompt attention to this matter.

Please be reminded that 10 CFR 50.54(q) requires that proposed changes which decrease the effectiveness of your Emergency Plan shall not be implemented without application to and approval by the Commission. However, changes may be made without Commission approval if such changes do not decrease the effectiveness of the Plan, and the Plan, as changed, continues to meet the standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR Part 50. If a change is made without approval, you should furnish copies in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of Appendix E to 10 CFR Part 50.
