DOCKET NUMBER
PROMISED RULE PR-50
(47 FR 33980)

Nuclear Reg. Comm.:

I am in total agreement that
nuclear-plant employees be in
some way screened for
drugs or alcohol to avoid
accidents or mistakes that
they may make.

It seems increasingly
necessary for any responsi-
ble business to do likewise

Yours for a safer
America

RE: Physical fitness for
Nuclear plants workers.

emp

PROPOSED RULE PR-50

(47 FR 33980)

I just want to say that I feel there
should be ~~the~~ certain stipulations regarding
the physical/psychological aspect of nuclear
plant workers.

The materials etc that they work with could
harm people and areas around these plants.
They should be aware of the effects and
be able to handle problems with efficiency
and promptness. You can't do this if your
mind/body is overruled by some other toxin.

Its just like air-traffic controllers. They have
to have a certain physical/psychological
attitude for their job and its "part of their job"
is doesn't interfere with civil rights etc.

Thank you for taking the time to read
this.
