6398

Dear Mr. Johnson:

In compliance with your letter of May 9, we wish to report the following:

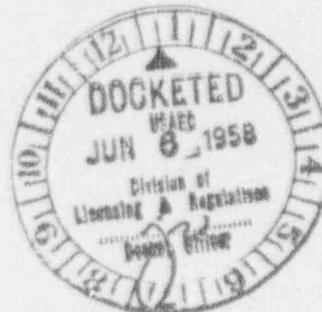

1. Air contamination surveys. A Gast Air Sampler, Model AD-440, was purchased and survey samples have been sent to the laboratory for analysis.
2. Posting the storage room containing the bulk of the thorium with radiation signs has been completed.
3. Posting of the large room containing the six electric induction furnaces: The door entrance to the furnace platform and the stairways rising to the furnace platform have been posted with radiation signs.
4. The four furnaces containing approximately 160 pounds of ThO₂ have each been posted with a radiation sign.

Yours very truly,

WAH CHANG CORPORATION
