Gentlemen:

Subject: Inspection No. 99990001/81-25

This refers to the special, safety inspection conducted by Ms. M. Campbell of this office on December 10, 1981 at your former facility in Fairlawn, New Jersey, of activities formerly authorized by NRC License No. STB-665 and to the discussions of our findings held by Ms. M. Campbell with Mr. R. Cunningham of Crompton and Knowles Corporation at the conclusion of the inspection, and to a subsequent telephone discussion between yourself and Ms. Campbell on December 11, 1981. This closeout inspection was conducted as part of an NRC effort to ensure that facilities where licensed activities were formerly conducted meet current criteria for release for unrestricted use.

Areas examined during this inspection are described in the Office of Inspection and Enforcement Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Within the scope of this inspection, no items of noncompliance were observed. It appears that this facility meets current criteria for release for unrestricted use.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed report will be placed in the Public Document Room.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

John D. Kinneman, Chief
