Gentlemen:

Reference is made to your document IRT 4171-003 entitled "Physical Security Plan for the Protection of Special Nuclear Material of Moderate and Low Strategic Significance," dated October 1981. As requested during discussions with Mr. D. Carlson of the NRC staff and reflected in your letter dated November 3, 1981, a review against the requirements for protection of SNM of Moderate Strategic Significance was not performed. A review against the requirements for protection of SNM of Low Strategic Significance was completed. We have determined that the plan meets the regulatory requirements of 10 CFR 73.67(f) and is therefore approved.

It has been determined that your Physical Security Plan contains information of a type specified in 10 CFR 2.790(d). Accordingly, pursuant to Section 2.790(d)(1), such information is deemed to be commercial or financial information within the meaning of 10 CFR 9.5(a)(4) and shall be subject to disclosure only in accordance with the provisions of 10 CFR 9.12.

Sincerely,

Original Signed By:
