Gentlemen:

This refers to my visit on March 30-31, 1982 and my letter of March 15, 1982 which identified safeguards requirements for the transfer of special nuclear material to the newly constructed vault. Based on discussions with you and members of your staff during that visit, we are revising the license conditions contained in the enclosure of my March 15, 1982 letter. Accordingly, we are amending Materials and Plant Protection Amendment, MPP-1 to your License No. SNM-696 by adding the license conditions set forth in the enclosure to this letter, effective immediately. Should you have any questions regarding this matter, please contact Mr. D. Carlson at 301-427-4043.

Sincerely,

Original Signed By:
