In The Matter Of
METROPOLITAN EDISON COMPANY
(Three Mile Island Nuclear Station, Unit No. 1)
Docket No. 50-289 (Restart)

Dear Administrative Judges Edles, Buck and Gotchy:

This letter concerns UCS' filing of August 25, 1982, "Union of Concerned Scientists' Reply to Staff and Licensee Responses to Appeal Board Order of July 14, 1982." UCS wishes to correct two typographical errors, supply one page which may be missing from one attachment to our reply, and clarify one footnote.

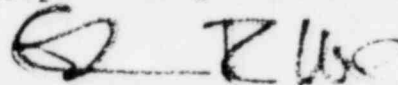

- 1) Page 23, 6th line from bottom: change "one" to "use". The line should then read: "directly stating that use of the safety valves precludes attaining".
- 2) Page 28, 12th line: change "repressurization" to "depressurization". The line should then read: "The second section (cooldown and depressurization following a)".
- 3) Attached to the Appeal Board and Commission copies of this letter is the third page of the July 31, 1981 letter to James P. O'Reilly, NRC from William O. Parker, Jr., Duke Power Company which was an attachment to "Union of

Admin. Judges Edles, Buck and Gotchy
Page 2
August 27, 1982

Concerned Scientists' Notification of New Information
Concerning Steam Voiding in B&W Reactor Coolant Systems",
October 8, 1981.

- 4) The footnote on page 26 of UCS' August 25, 1982 reply should have stated that a copy of the referenced document was being provided only to the Appeal Board & Commission. The Staff had already served the other parties with presumably complete copies of that document with its August 9, 1982 response.

Respectfully submitted,

Ellyn R. Weiss
Counsel for UCS
