Attention: Mr. William O. Miller

Gentlemen:

We are desirous of disposing of three of the four sources of Cobalt-60 authorized for use at our facility under license No. 34-653-2.

The sources to be removed from our facility are: one (1) source of three Curies obtained under authorization 13167 dated 29 February 1952; one (1) source of three hundred Millicuries and one (1) source of two hundred Millicuries obtained under authorization 7594 dated 18 October 1950.

It is our desire to transfer these sources to a facility licensed for this material on a no cost basis, however, if this cannot be arranged we would then wish to return the source to Oak Ridge for burial. It would be appreciated if you could advise us of licensees authorized for receiving Cobalt-60, and whether any of these facilities would desire the sources mentioned above.

Your cooperation in this matter is greatly appreciated.

Very truly yours,
