Westinghouse Electric Corporation
ATTN: Mr. Wilbur Goodwin, Manager
Regulatory Compliance
Nuclear Fuel Division
Drawer R
Columbia, South Carolina 29250

Gentlemen:

The NRC Office of Nuclear Regulatory Research has contracted with Oak Ridge National Laboratory (ORNL) for an evaluation of potential accidental releases of materials from fuel cycle facilities. As part of this study, ORNL personnel want to visit various fuel cycle plants, including the Westinghouse Columbia facility. We request that a one- or two-day visit be approved for a team of three ORNL people. Team members will want to tour the plant and discuss potential accidental release scenarios with Westinghouse personnel. The team leader is Dr. Moshe Siman-tov, who will contact you to arrange timing and details of the visit.

Sincerely,

G. H. Bidinger
