Re: Moisture Content of MEI Sludge Samples

Dear Mr. Gaskin:

Pursuant to the February 8, 1994 request of David Lewis, Esq., attached is a copy of IT Corporation Standard Operating Procedure Number ITAS-OR-OP-6604, "% Moisture of Solid Matrices". This method was used to determine the moisture content of the sludge samples collected and analyzed for IT Corporation Report No. IT/NS-93-115, "Identification of Radiological Constituents in Waste Sludge". Attached also is a listing of the results (percent moisture) for each of the samples that were analyzed at our laboratory. I hope that this information will be of use to you. If you have any questions or if I can provide you with additional information, please do not hesitate to give me a call at (202) 833-7314. It was a pleasure speaking with you again.

Sincerely,

IT CORPORATION

Carol D. Berger, C.H.P.
