Dear Mr. Boland:

SUBJECT: EXTENSION OF SOURCE MATERIALS LICENSE STB-401

In accordance with your application dated February 4, 1994, and pursuant to Part 40 Title 10 of the Code of Federal Regulations, Source Materials License STB-401 has been extended for the purposes of decommissioning.

10 CFR 40.42, "Extension and termination of license," provides for the extension of a materials license if the licensee is in the process of decommissioning. The decommissioning status of your site was recognized and established with the issuance of Amendment 2 to License STB-401 dated July 12, 1993, for a possession only license which satisfies the requirements of Section 40.42(b).

There are specific provisions in Section 40.42 that require submittal of site characterization, decommissioning, and financial assurance plans. Your submittal of a site characterization plan on January 12, 1994, represents the first step in satisfying the requirements of Section 40.42(c)(1)-(3). That plan is currently undergoing technical review.

Please note that future correspondence associated with Source Materials License STB-401 should be transmitted to the following address:

Chief, Licensing Branch
Division of Fuel Cycle Safety and Safeguards
Office of Nuclear Material Safety and Safeguards
Nuclear Regulatory Commission
Washington, DC 20555

If you have any questions concerning this action, please contact Mr. Charles E. Gaskin, Senior Licensing Project Manager, (301) 504-2649.

Sincerely,

ORIGINAL SIGNED BY

Robert C. Pierson, Chief
Licensing Branch
Division of Fuel Cycle Safety
and Safeguards, NMSS
