ATTN: Mr. J. J. Carey, Vice President

Gentlemen:

By letter dated June 25, 1982, the Division of Licensing (DL) staff approved your application dated June 16, 1982, and issued Amendment No. 52 to Facility Operating License No. DPR-66. This application related to a temporary waiver of the accuracy requirements for the rod position instrumentation when Beaver Valley Power Station Unit No. 1 is below normal power operation temperature. Fees pursuant to 10 CFR 170.22 were not remitted with your application.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class III fee (\$4,000) is appropriate for your June 16, 1982 application since the review involved consideration of a single safety issue. Therefore, you are requested to remit the sum of \$4,000 to this office.

Sincerely,

Original Signed by:
