SUBJECT: STATION BLACKOUT, Generic Letter 81-04

The Commission has reviewed your letter dated August 21, 1981 related to emergency procedures and training of personnel for station blackout events.

We have determined that the existence of the Auxiliary Cooling Method (ACM) system, with the associated operator procedures, training and emergency procedures, address the concerns expressed in our letter. Therefore, we find your response to our generic letter 81-04 acceptable.

Sincerely,

Original signed by:

George Kuzmycz, Project Manager
Operating Reactors Branch #3
Division of Licensing
