Cincinnati, OH 45241-1861

License No. 34-18893-01
Docket No. 030-17324

Dear Mr. Jeffers:

This refers to the special safety inspection conducted by W. P. Reichhold of this office on December 14, 1993 within office review through January 20, 1994, of activities authorized by NRC Byproduct Material License No. 34-18893-01, and to the discussion of our findings with you at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated November 25, 1991, regarding violations found during our September 24, 1991 inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities were found to be in violation of NRC requirements, as specified in the enclosed Notice. A written response is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosure, and your response to this letter will be placed in the NRC Public Document Room.

The response directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
