Dear Sir:

In response to your letter of August 13, 1982, we are enclosing an address list of all NRC radioisotope licensees located in Region II.

This listing does not specifically identify oil and gas logging companies; however, from your knowledge of the industry perhaps you will be able to recognize most of your potential customers.

As I recall, most of our well loggers are affiliated with parent organizations in Texas or Oklahoma and many of them are involved in coal, rather than oil logging.

Please advise me if we can be of further assistance.

Sincerely,
