FILE: 0505.813 SERIAL: 18791

The July 20, 1982 letter from J W Cook to H R Denton describes how Consumers Power Company (CP Co) intends to modify its organization to encompass the Independent Safety Engineering Group (ISEG) role described in NUREG-0737, Item 1.B.1.2

Your Chapter 13 reviewer has requested that CP Co state when the group that will be responsible for the ISEG duties will be in place. In response to that question: The Nuclear Activities Plant Organization (NAPO) described in the July 20 letter will be in place with standards and procedures 90 days before fuel load. This letter should provide the additional information needed to close the confirmatory issue on the Midland docket dealing with the ISEG.
