Gentlemen:

Subject: Confirmation of Action, License No. 41-19870-01

This refers to our letter of August 17, 1982, and the telephone conversation of August 24, 1982, between John Olshinski, NRC, and Charles Self, RIA, granting our consent to resume radiopharmaceutical activities subject to stipulations as follows:

1. The licensee will conform to the commitments in his letter of August 24, 1982, addressed to the Regional Administrator, NRC, Region II.
2. The licensee will insure that the named physician users will administer the doses to the patients, until such time as the Materials Licensing Branch, NMSS, NRC, may agree with alternative procedures. However, doses to patients under the care of Tassanee Visisviriyaihai, M.D., may be administered by a technologist in her presence.
3. The licensee will insure that the newly appointed Radiation Safety Officer, Subhash, Saha, M.D., will for the next six months perform bi-weekly (every two weeks) audits of compliance with license conditions and NRC rules in Title 10, Code of Federal Regulations, and maintain records of these audits.

We are also considering the issuance of an Order to Show Cause (10 CFR 2.200-203) as to why your license should not be revoked for willfull violation of NRC rules and license conditions.

Please note that the recordkeeping requirements identified above are not subject to Office of Management and Budget clearance as required by P.L. 96-511.
