

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

DEC 08 1993

LETTER FOR: State Officials and Uranium Recovery
Field Office Licensees on Attached List

Dear Ladies and Gentlemen:

Attached is a summary of the meeting held in the Uranium Recovery Field Office (URFO) on November 18, 1993, in which many of you participated. This summary reflects our understanding of the concerns and issues you presented to the NRC Transition Oversight Team (TOT), and responses we may have made to your points. We have attempted to capture the future actions to which we committed, and have established milestones for resolution of those items suitable for specific actions. Please advise Ramon Hall, Director, URFO if any of the concerns or issues are inaccurately presented, or if your understanding differed from ours.

We have scheduled another similar meeting for early February, 1994, in the Region IV offices at 611 Ryan Plaza Drive, Suite 400, Arlington, Texas,. The Region IV telephone number is (817) 860-8100. During this meeting we plan to continue our interactions on the issues related to closure of URFO, and to continue to explore means to reduce regulatory impact during and following the transition. During our November 18 meeting, the representatives of the American Mining Congress and the Wyoming Mining Association committed to recommending an agenda, format, and scope for the planned February meeting. The NRC committed to have cognizant license reviewers from NRC headquarters, and regional inspectors available so that the licensees could provide specific site discussion seminars.

Please advise URFO, (303) 231-5800, of your intent to participate in this meeting prior to January 15, 1994, so that adequate conference space may be scheduled. Should you wish to suggest agenda topics, please address your suggestions to Ramon Hall.

Sincerely,

Malcolm R. Knapp, Chairman
Transition Oversight Team
