Dear Mr. Fiedler:

SUBJECT: SEP TOPIC III-1, QUALITY GROUP CLASSIFICATION OF STRUCTURES,
COMPONENTS AND SYSTEMS - OYSTER CREEK NUCLEAR GENERATING
STATION

The draft safety evaluation for SEP Topic III-1, "Classification of Structures, Components and Systems (Seismic and Quality)," which was forwarded to you on April 12, 1982, is now considered a final safety evaluation report since you have not provided comments or corrections on the draft report (a 30 day response was requested). The actual classification of structures, components and systems used in Topic III-1 was previously reviewed by GPU Services and forwarded to A. Wang, NRC, from Y. Nagai on November 30, 1981. The open items in that topic report will be factored into the integrated assessment.

Sincerely,

Dennis M. Crutchfield, Chief
