

Mr. James G. Yusko, Regional Manager
 Commonwealth of Pennsylvania
 Department of Environmental Resources
 Field Operations - Radiation Protection
 400 Waterford Drive
 Pittsburgh, PA 15222-4745

Dear Mr. Yusko:

Per our discussion on Friday January 14, 1994, I have enclosed a copy of a draft Memorandum of Understanding (MOU) between Region 6 of the Environmental Protection Agency (EPA) and Region IV of the Nuclear Regulatory Commission (NRC). This MOU establishes the roles and responsibilities of the EPA and the NRC regarding any remedial action at the Sequoyah Fuels Corporation site near Gore, Oklahoma. This is a site specific MOU and does not pertain to other remedial actions elsewhere in Oklahoma.

Although the main focus of our discussion was the Babcock & Wilcox Parks Township site, the Commonwealth of Pennsylvania contains several sites which will require remediation activities in the future. These activities would involve both the NRC and the Pennsylvania Department of Environmental Resources (PADER).

As previously discussed, would PADER favor the development of a site specific MOU between the NRC and PADER, similar to the attached MOU, for the Babcock & Wilcox Parks Township site, or should a generic MOU for the Commonwealth of Pennsylvania be developed to encompass all sites located in Pennsylvania?

NRC believes the development of an MOU, either site specific or generic, would be beneficial and would help ensure that remedial actions occur in a timely and effective manner. Please let me know how you would prefer to proceed. I can be reached at (301) 504-2560.

Sincerely,

John H. Austin, Chief
