Re: 10CFR50, Appendix E
10CFR50.4(b)(5)

U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, D.C. 20555

Gentlemen:

Haddam Neck Plant
Emergency Plan Revision

The purpose of this letter is to inform the NRC staff that Revision 24 to the Haddam Neck Plant Emergency Plan was implemented in January, 1994.

The primary purpose of this revision is to reflect annual changes to the Emergency Plan for the Haddam Neck Plant. It should be noted that the interim revision to the Haddam Neck Plant Emergency Plan, which was implemented in August 1993, has been incorporated into this update.

Connecticut Yankee Atomic Power Company has reviewed this revision in accordance with 10CFR50.54(q) and has determined that the revision does not decrease the effectiveness of the plan. The plan, as revised, continues to meet the intent of the standards of 10CFR50.47(b) and the requirements of Appendix E to 10CFR50. Controlled copies of the revision will be submitted with our controlled copy distribution process.

Should you have any questions, please contact us.

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
