Notification of a Change in the Physical Condition  
of a Reactor Operator

Gentlemen:

This letter serves as notification of a change in the  
physical condition of the Reactor Operator identified below.

<u>Name</u>	<u>Docket No.</u>	<u>License No.</u>
Thomas A. Manley	55-61738	OP-11075

On December 15, 1993, this individual was involved in an off-duty accident which resulted in a change in the individual's physical condition such that his condition no longer meets the requirements of 10CFR55.33(a)(1) as determined by PECO Energy Company's Director-Occupational Health and Safety and Limerick Generating Station's Physician's Assistant based on the standards for general health set forth in American Nuclear Society Standard ANSI/ANS 3.4-1983, "Medical Certification and Monitoring of Personnel Requiring Operator Licenses for Nuclear Power Plants." This diagnosis was made on January 10, 1994, based on medical information provided by the individual's attending physician. The individual is currently out of work on disability leave as a result of the accident; however, the individual was relieved of all licensed duties by plant Operations management upon notification of the diagnosis.

Accordingly, this notification is being submitted to the NRC within 30 days of learning of the diagnosis in accordance with the requirements of 10CFR55.25 and 10CFR50.74(c).

Once the individual returns from disability leave, he will be further evaluated by an examining physician to determine if this disability can be accommodated in accordance with the guidance provided in Section 5.1 of standard ANSI/ANS 3.4-1983. Depending on the results of this evaluation, the individual's license may be terminated or a conditional license may be requested. The NRC will be notified of the results of this decision in accordance with the applicable requirements.

Thank you for your attention in this matter.

Very truly yours,

GHS
