

AUG 10 1982

Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Richard P. Crouse
Vice President, Nuclear
Edison Plaza
300 Madison Avenue
Toledo, Ohio 43652

Gentlemen:

By letter dated July 29, 1982, the Division of Licensing (DL) staff approved your application dated June 22, 1982. This application requested relief from the hydrostatic testing requirements of the ASME Code Section XI for certain piping system welds for the Davis-Besse Nuclear Power Station, Unit 1. Fees pursuant to 170.22 were not remitted with your application.

Based on information provided by the DL staff as the result of their final review of your application, it has been determined that a Class III fee (\$4,000) is appropriate for this application since the review involved consideration of a single safety issue. Therefore, you should remit the sum of \$4,000 to this office.

Sincerely,

Original Signed by:
Reba M. Diggs
