Dear Mr. Keimig:

Haddam Neck Plant
Emergency Preparedness Exercise

Connecticut Yankee Atomic Power Company (CYAPCO) hereby formally informs the NRC Staff that we have scheduled our annual emergency preparedness exercise at the Haddam Neck Plant for May 14, 1994. This date was previously discussed with the NRC Region I Staff.

This exercise is considered a full-participation exercise; therefore, requirements of Section IV.F in Appendix E to 10CFR50 are applicable. The State of Connecticut and the local communities within the plume exposure pathway emergency planning zone will participate in our exercise as defined in 10CFR50, Appendix E. It is our understanding that the Federal Emergency Management Agency will evaluate off-site participation and the NRC will evaluate on-site activities.

In accordance with previous NRC Staff guidance, we hereby submit the on-site and off-site objectives for the Haddam Neck Plant and corporate emergency response organizations. The objectives are included as an attachment to this letter.

CYAPCO has determined that the objectives for the May 14, 1994, exercise contain enough detail to allow individuals to determine certain elements of what the actual scenario will be. Therefore, only a limited distribution of the attached objectives is planned. We respectfully request that you withhold the attachment from the Public Document Room until completion of the exercise.

In order to ensure that the NRC Staff personnel attending the exercise are not delayed in obtaining the required security and radiation protection clearances, the following information is requested by April 14, 1994:

- Name of NRC Staff personnel attending
- Social security numbers
- Security clearance letter for the above personnel

Should you have any questions, please feel free to contact us.

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
