Chief, Licensing Branch
Division of Civilian Application
U. S. Atomic Energy Commission
1717 H Street, N. W.
Matomic Building
Washington, D. C.

Dear Mr. Johnson:

We are pleased to enclose herewith four (4) copies of our application for a Special Nuclear Material License. This requests permission for Clevite Research Center, a division of Clevite Corporation, to possess and maintain a supply of up to 10 kilograms of contained uranium in the isotope-235 for use in the development and fabrication of reactor components.

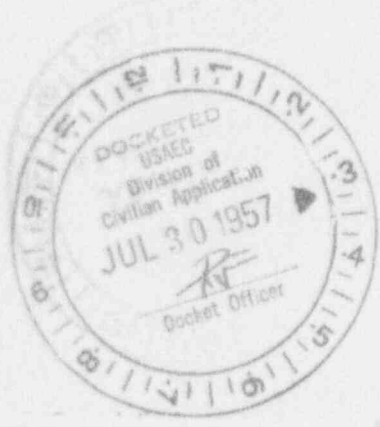

Permission is also requested to possess and process special nuclear material allocated to prime users, who will furnish the material to Clevite in the enrichment and quantity necessary to fabricate the particular nuclear components required.

The application has been prepared in accordance with our understanding of the United States Government Printing Office extract of the Federal Register Title 10, Chapter 1, Part 70, Code of Federal Regulations.

Should additional information be required, we will be glad to arrange to have our representatives meet with you at your convenience. All correspondence relating to this application should be directed to Clevite Research Center, 540 East 105 Street, Cleveland 8, Ohio to the attention of Mr. R. L. Shearer.

Very truly yours,
CLEVITE CORPORATION
