RE: **Materials License to handle nuclear materials**
Pryor Foundry, Inc., Pryor, Oklahoma
License Number: 35-18099-01
Docket number: 030-14479
Expiration date: 1-31-98
QA Program Docket No. 71-0206 (expires 4/30/95)

Dear Billie Gruszynski:

Grede Foundries, Inc. is preparing to purchase the assets of Pryor Foundry, Inc., Pryor, Oklahoma. Included among the assets to be purchased is a Cobalt 60 nuclear source, which is used for radiographic nondestructive testing of iron castings at the foundry.

Consistent with the regulations regarding the transfer of the NRC license for this operation, the current licensee, Pryor Foundry, Inc., is submitting a formal request to amend the license to accommodate a change in facility name and ownership. Likewise, Grede Foundries, Inc. requests that the NRC honor the request to amend the license.

As required by IN 89-25, Grede Foundries, Inc. offers the following information and statements:

The new facility name will be **Grede-Pryor, Inc.**, which will be an Oklahoma corporation and a wholly-owned subsidiary of Grede Foundries, Inc., Milwaukee, Wisconsin. The facility, the operating personnel, the on-site Radiation Safety Officer, QA/QC Program, and related licensed material activity will not change. Only the legal owner and the facility name will be changed.

Grede Foundries, Inc., as parent company, and Grede-Pryor, Inc., as licensee, will abide by all constraints, conditions, requirements, representations, and commitments identified in the existing license.

Enclosed with this letter is a check in the amount of \$690.00, which is the required fee for the amendment request. Your assistance in expediting this request is appreciated.

Please contact me at (414) 256-9333 if any additional information is necessary or if you have any questions and/or comments.

Sincerely,

GREDE FOUNDRIES, INC.
