We have been informed by the Division of Licensing and Regulation that, as of this date, the Clevite Research Center does not have a special nuclear material license for the receipt and possession of special nuclear material. We were also informed; however, that Clevite had filed an application for such a license. Upon receipt and acceptance of the forms and notification from AEC Headquarters that Clevite is appropriately licensed to receive and possess this material, we will place your order with our contractor.

Please advise if we can be of further assistance in this matter.

Very truly yours,
