Mr. Joseph Delaney
Atomic Energy Commission
Licensing Branch
Division of Civilian Application
Gaithersburg, Maryland

- Reference:
- a) Special Nuclear Material License Application submitted January 28, 1958
 - b) Meeting at AEC January 28, 1958

Dear Mr. Delaney:

Further to our discussions on January 28th I am enclosing one copy each of the 1955 and 1956 Clevite Corporation Annual Reports to complete the fourth copy of the Special Nuclear Material License Application left with you at that time. In checking with the Corporation I find that the 1957 Annual Report will not be ready until about March 7th. We plan to forward four copies to you immediately they are available.

During our meeting the fact that the procedures submitted with the application had been stamped "Company Confidential" was discussed. Since returning to Cleveland these have been reviewed and I would like you to accept this letter as your authority to declassify all of the procedures except

CR-20 -- Process Procedures for the Fabrication of Fuel Elements for Aktiebolaget Atomenergi R2 Materials Testing and Research Reactor.

Handwritten note: All 4 copies of report.

This particular procedure is currently being reviewed to see what can be done toward declassification.

Messrs. Walker and Gilmore join me in thanking you for the courtesies granted to us during our visit. Please do not hesitate to telephone should you require any further information.

Sincerely yours,

CLEVITE RESEARCH CENTER

R. L. Shearer
