Docket No. 50-373

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. M. J. Jordan, W. G. Guldemon, N. Chrissotimos, R. D. Walker and A. Madison of this office on June 1-30, 1982, of activities at LaSalle County Nuclear Station, Unit 1, authorized by NRC Operating License No. NPF-11 and to the discussion of our findings with Mr. R. H. Holyoak at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required. It should be noted that the noncompliance items identified as items 1 and 2 in the Appendix are considered to be particularly significant by the NRC. These items were discussed in a management meeting held on June 11, 1982 in the NRC Region III office. The nature of these two items of noncompliance are such that if their safety significance were of greater consequence, escalated enforcement action would have been considered. Therefore, we request that you give special attention to these items in your response to ensure that positive corrective actions are taken to avoid recurrence.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractors) believe to be exempt from disclosure under 10 CFR 9.5(a)(4), it is necessary that you (a) notify this office by telephone within ten (10) days from the date of this letter of your intention to file a request for withholding; and (b) submit within twenty-five (25) days from the date of this letter a written application to this office to withhold such information. If your receipt of this letter has been

delayed such that less than seven (7) days are available for your review, please notify this office promptly so that a new due date may be established. Consistent with Section 2.790(b)(1), any such application must be accompanied by an affidavit executed by the owner of the information which identifies the document or part sought to be withheld, and which contains a full statement of the reasons which are the bases for the claim that the information should be withheld from public disclosure. This section further requires the statement to address with specificity the considerations listed in 10 CFR 2.790(b)(4). The information sought to be withheld shall be incorporated as far as possible into a separate part of the affidavit. If we do not hear from you in this regard within the specified periods noted above, a copy of this letter, the enclosures, and your response to this letter will be placed in the Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

R. L. Spessard, Director
Division of Project and
Resident Programs
