and 50-306

Northern States Power Company
ATTN: Mr. D. M. Musolf
Acting Head, Nuclear Support
Services
414 Nicollet Mall - 8th Floor
Minneapolis, Minnesota 55401

Gentlemen:

On July 28, 1981, the Division of Licensing (DL) completed the review of your May 16, 1980 application and issued Amendment Nos. 49 and 43 to Facility License Nos. DPR-42 and DPR-60 for the Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2. Classes III (\$4,000) and I (\$400) fees were paid with the application pursuant to 10 CFR 170.22.

Based on information received from the DL staff, it has been determined that the May 16, 1980 application also requires Classes II and I fees for that portion of the application relating to operable, organization and snubbers. The classes III and I fees which your Company paid are appropriate for the degraded grid voltage and related items. It is requested that your Company remit an additional sum of \$1,600 to complete the fee requirements for this application.

We apologize for the delay in bringing this matter to your attention.

Sincerely,

Original Signed by:
