Re: Notice of Deviation  
Docket No. 030-17304  
License No. 34-18882-01  
EA 93-308

Gentlemen:

In response to Mr. John B. Martin, Region III Administrator's letter of January 19, 1994, Notice of Deviation, we have prepared the following response.

As stated in the Notice of Deviation, we did not comply to commitment made in our letter dated December 21, 1992. As a result of the December 15, 1993, audit, we have already purchased a high-density plastic lock box and have had made a prototype steel box. We are currently evaluating both boxes. Enclosed you will find a sketch of the prototype metal lock box as well as photos of the metal box and the high-density plastic lock box. We believe that both of these type boxes will satisfy our commitment to remove the convenience nuisance that the yellow gauge boxes present.

Please note, our work is seasonal as confirmed by the audit of December 15, 1993, when your representative was made aware of several gauges secured in our vault in our Cincinnati office. We, previously, verbally committed to the implementation of the lock box program by the end of February 1994 and are working toward that commitment.

We are proceeding with installation, purchase and fabrication of the new boxes which will be completed by the end of April 1994, and will be supplemented as needed with additional boxes for newly hired employees with open-bed pickup trucks.

TO Files*

The metal lock boxes will be fabricated by Carson Fabricators Company, Wilder, Kentucky. Enclosed is a copy of the invoice for the prototype box. The high-density plastic box, known as Packer Model No. 210000, is manufactured by Delta, Inc., Jonesboro, Arkansas 72401.

Respectfully submitted,

**H. C. NUTTING COMPANY**

Need Sheet Metal Case with hinged lid and locking hasp, to put a weather proof plastic case with a meter in it, into Sheet Metal Case

Case needs to be able to be fasten to bed or side (inside) of pick up truck by bolting or some other means that is not easily able to removed from pick up.

Case does not have to look pretty in fact it must not create a "convenience nuisance"

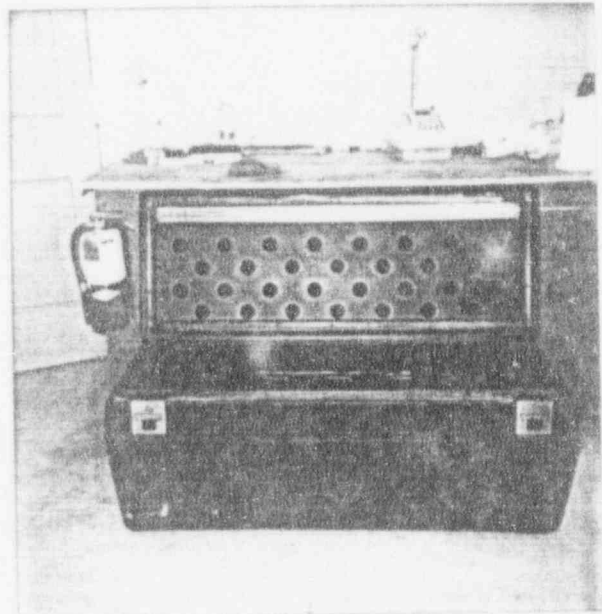

HC Nutting Co.  
Purchased Lock-Box to  
eliminate "convenience nuisance"  
caused by Yellow Box / Gauge Box
