Dear Mr. Council:

SUBJECT: MILLSTONE 1 - DRAFT REVIEW OF OPERATING EXPERIENCE FOR
SYSTEMATIC EVALUATION PROGRAM

Enclosed is a draft report summarizing the operational experience through 1980 for the Millstone 1 facility. This draft report was received by the NRC in December 1981, however, due to an administrative error it was not forwarded for your review and comment on the factual accuracy of the described events. We are in the process of updating the information in this report to reflect operating experience in 1981. We plan to meet with you and our consultants (Oak Ridge National Laboratory) to discuss this draft and to review the 1981 data in late September 1982. Please provide comments on this draft by September 24, 1982. The information contained in this report will be used to support conclusions made during the integrated assessment and will be issued as an appendix to the Integrated Plant Safety Assessment Report.

To expedite this process you are requested to send a copy of your comments directly to Oak Ridge National Laboratory, addressed to:
