

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

February 22, 1994

MEMORANDUM FOR: Document Control Desk  
Document Management Branch  
Office of Information Resources Management

FROM: James W. Clifford  
Senior Project Manager  
Project Directorate V  
Division of Reactor Projects III/IV/V  
Office of Nuclear Reactor Regulation

SUBJECT: DOCUMENTS FOR PLACEMENT IN THE PUBLIC DOMAIN

Enclosed are two documents that are to be placed in the public domain, in conjunction with this memorandum. These documents have been authorized for public release by the BWR Owners' Group, as discussed in their January 12, 1994 letter (Enclosure 1). The enclosures to this document include data and analysis performed for the BWR Owners' Group by organizations identified in the letter. Enclosure 2 is data and analysis obtained by the staff during an inspection in Princeton, New Jersey in April 1993, and is considered proprietary by the BWR Owners' Group. As stated in Enclosure 1, the BWR Owners' Group and EPRI have decided to waive their commercial interest in the report and test data in the spirit of continued cooperation with the NRC, on the condition that Enclosure 2 only be made available as an attachment to Enclosure 1.

This memorandum serves as the NRC acknowledgement of, and the vehicle for, the agreement with BWR Owners' Group that Enclosure 2 will only be made public available with Enclosure 1. We request that the enclosures be added to all Boiling Water Reactor docket, and also sent to the Public Document Rooms, both central and local.

James W. Clifford  
Senior Project Manager  
Project Directorate V  
Division of Reactor Projects III/IV/V  
Office of Nuclear Reactor Regulation
