Dear Mr. Patterson:

SUBJECT: REVISIONS AND CLARIFICATIONS OF THE LICENSING BASES FOR POST  
ACCIDENT SAMPLING SYSTEM (PASS) AT FORT CALHOUN STATION (TAC  
NO. M88079)

The NRC has completed a review of the proposed revisions and clarifications of the licensing bases for the post accident sampling system (PASS) at Fort Calhoun Station, Unit 1, as described in your letter dated September 24, 1993. We find all of these revisions and clarifications acceptable because their implementation would not cause the PASS to depart from the requirements specified in 10 CFR 50.34(f)(2)(viii) and Section II.B.3 of NUREG-0737. Enclosed is our Safety Evaluation (SE) which supports our conclusions.

Sincerely,
