## RESPONSE SHEET

TO: SAMUEL J. CHILK, SECRETARY OF THE COMMISSION

FROM: COMMISSIONER ROGERS

SUBJECT: **SECY-93-355 - REVIEW OF THE REGULATIONS AND PRACTICE GOVERNING CITIZEN PETITIONS UNDER 10 CFR 2.206**

APPROVED x WITH COMMENTS x KCR DISAPPROVED ____ ABSTAIN ____

COMMENTS:

The staff is to be commended for this very clearly written, well structured and well balanced paper. The various contending points of view on our 2.206 petition practices have been seriously considered and the resulting staff recommendations are soundly based. I approve all of them (1, 2 and 3).

I found the comments relating to the NRC practice of labeling 2.206 petitions and consolidation of all 2.202 petitions (second full paragraph on P. 6 of the SECY paper) worthy of further consideration. Unfortunately, I was unable to find any staff recommendations on this matter. I suggest that it not be dropped.

With respect to the development of a Management Directive and citizens information brochure, I would request the staff to share their final drafts of these with the Commission for its comments prior to their issuance.

I would also ask the staff to consider the possibility of adding information on the status of 2.206 petitions to an NRC electronic bulletin board.
