Chairman's comments on SECY-93-355

I wish to commend the staff for a very thorough job in eliciting and analyzing comments on ways to improve the Commission's citizen petition process under 10 CFR 2.206. I believe that the staff's recommendations have the potential to produce a more accessible, understandable, and more effective process for all parties and the Commission. However, because various staff offices will be responsible for implementation of these recommendations, I recommend that the Executive Director for Operations and the General Counsel appoint a single official to monitor completion of the various tasks recommended in this paper and the implementation of the new policies in individual 2.206 petitions, to assure consistency.
