CONSUMERS POWER COMPANY - TOPICAL REPORT CPC-2A - REVISION 1
QUALITY ASSURANCE PROGRAM DESCRIPTION FOR OPERATIONAL NUCLEAR POWER PLANTS

Consumers Power Company submitted to the NRC on August 4, 1982 a document entitled "Topical Report CPC-2A-Revision 1, Quality Assurance Program Description for Operational Nuclear Power Plants." Upon further review, it was determined that a revision to the wording in Section 18.2.11 is necessary in order to be consistent with the language in the Plant Technical Specifications. Section 18.2.11 should be revised to read as follows:

"Audits described in Plant Technical Specifications are performed under the cognizance of NSAP (See Section 1.2.2d)."
