December 20, 1993.

To:

Ms. Cheryl Phillips
U.S. Nuclear Regulatory Commission
License Fee and Debt Collection Branch
P.O.Box 954514
St. Louis, Mo. 63195-4514

Dear Ms. Phillips:

I am enclosing with this letter, a copy of a letter that I wrote on September 27, 1993. In that letter I had asked that the invoices be adjusted to account for "small entity status", for which I qualify. I had also requested that my NRC License no: 21-24363-01 be terminated effective September 27, 1993 and that I did not wish to renew my NRC License at this time.

I have not received any follow-up notification from NRC on the requests that I have made.

In the mean time I keep receiving calls and memos from Kevin Mc Cabe of Payco-General American Credits, Inc., regarding their bills that are still to be adjusted to accurately reflect my "small entity status"

I do not have any resources at this time to make full payment on the adjusted bills also. I am willing to make payment at \$300 per month installment plan to clear the payments due NRC.

I will appreciate very much if you will take action on my requests as soon as possible.

Thanking you in anticipation
Sincerely yours

Syed Mahmood Ali Khan
