and 50-425

Mr. C. K. McCoy
Vice President, Nuclear
Georgia Power Company
40 Inverness Center Parkway
Post Office Box 1295
Birmingham, Alabama 35201

Dear Mr. McCoy:

In your letter dated December 28, 1993, you informed us of your plans to request a license amendment for the Vogtle Electric Generating Plant which would convert the existing technical specifications to the improved standard technical specifications (NUREG-1431). This amendment request is tentatively scheduled to be submitted in early 1995, with an expected completion by the end of that year.

We plan to give your submittal prompt attention when received. We would appreciate it if you would keep us informed of your schedule for this effort to facilitate our resource planning. In the interim, we will continue to work with the Owner's Groups to develop improvements to the conversion review process based on the lessons learned from the lead plant reviews.

Sincerely,
