Nuclear Materials Safety and Safeguards Branch
Division of Radiation Safety and Safeguards

SUMMARY

Scope:

This routine, announced inspection was conducted in the area of the Safeguards Program for Non-power Reactors, to include the Material Control and Accountability Program. Specifically, the inspector reviewed the requirements of the NRC approved Physical Security Plan to include access controls, barriers, alarms, communications, response testing, and reporting of safeguards events.

Results:

In the areas inspected, violations or deviations were not identified.
